

## SANSIL BLUE PROTECTIVE FG

Ref. : 50592

### 1. GENERAL DESCRIPTION

---

Anti-corrosion protection – without silicone.

### 2. FEATURES

---

Thanks to its low surface tension, **BLUE PROTECTIVE FG** displaces humidity on metal surfaces. It lays down a bluish high quality damp-proof film, that assures a long-lasting efficient protection.

NSF registration No. 140207 class H2

### 3. APPLICATIONS

---

- Protection of parts machine-finished with emulsions or water-based solutions.
- Protection of parts degreased with alkaline detergents and rinsed with water.
- Protection against corrosion of metallic moulds or parts stored outdoors, under shelter.

### 4. DIRECTIONS

---

A safety data sheet (MSDS) according to EU directive 91/155/EEC and amendments is available.

### 5. TYPICAL PRODUCT DATA (without propellant)

---

- High covering power.
- Blue colored film.
- Neutralises fingerprints.
- Good lubricant, avoiding cleaning of moving parts before use or activation.
- Chemically inert for alloys and non-ferrous metals (such as zinc, aluminium, copper, Zamak, ...).

### 6. PACKAGING

---

Aerosol: 12 x 500 ml

All statements in this publication are based on service experience and/or laboratory testing. Because of the wide variety of equipment and conditions and the unpredictable human factors involved, we recommend that our products be tested on-the-job prior to use. All information is given in good faith but without warranty neither expressed nor implied.

This Technical Data Sheet may already have been revised at this moment for reason such as legislation, availability of components and newly acquired experiences. The latest and only valid version of this Technical Data Sheet will be sent to you upon simple request or can be found on our website: [www.crcind.com](http://www.crcind.com).

We recommend you to register on this website for this product so you will be able to receive any future updated version automatically.
