

TECHINICAL DATA: FL-4 OZZYMAT[®] MULTI-LAYER FLUID ACTIVATION MAT

The Ozzymat[®] is the essential Key to the SmartWasher system. The Ozzymat[®] traps particulates down to 50 microns in size but more importantly contains Ozzy[®] microbes. The Ozzy[®] microbes, impregnated in the Ozzymat[®], are transported along with the Ozzymat[®] into the SmartWasher tank. These natural occurring Ozzy[®] microbes break down the grease, oil, and other contaminants cleaned off the dirty parts and create a harmless by-product of carbon dioxide and water. This bioremediation process leaves the Ozzymat[®] clean, strong, and ready to use time after time without the need to change, evacuate or haul away dirty parts washing fluid.

FEATURES & BENEFITS:

- Impregnated with microbes
- Simple microbe delivery system
- Weekly peelable layers (4)
- Easy monthly change-out
- Heavy duty ready
- Traps particles down to 50 Microns

APPLICATIONS:

Specially designed for the CRC SmartWasher[®]

DIRECTIONS:

Remove the Ozzymat[®] from its package, unfold it and lay it on the mat support grid located in the lowest level in the sink. Make sure to lay the Ozzymat[®] white side up.

Every week peel away the top white layer of the Ozzymat[®] and wring out any excess fluid. Then dispose of this layer accordance to your local regulations. Return the false bottom of the Smartwasher[®] to its proper place.

At the end of the month simply roll-up the Ozzymat[®] and replace with a new one. Failing to regularly change the Ozzymat[®] at the advised intervals risks to Ozzymat[®] to become saturated and unable to pass fluid.

TYPICAL PRODUCT DATA

Reference:	32950
Appearance:	White and blue side
Size holes:	50 Microns
Optimal Working Temp (°C):	40 - 46 °C
Shelf life	2 years

OZZY[®] MICROBES INSIDE
CHANGE
THE OZZYMAT[®]
CHANGE THE OZZYMAT TO MAINTAIN CLEAN OZZYJUICE.
 OZZY MICROBES KEEP THE OZZYJUICE CLEAN AND STRONG.
 CLEAN OZZYJUICE MEANS CLEAN PARTS.
